The University of Nebraska

College of Medicine

Offers splendid opportunities for medical education.

Unexcelled laboratories, complete in every detail.

Clinical opportunities for each individual student exceptionally favorable.

New University Hospital for teaching purposes ready early in 1917.

Two college years are required for admission to Freshman Class.

ADDRESS ALL CHECKS TO THE BUSINESS MANAGER

THE PULSE

The opening of the College of Medicine for the 1917-18 session has presented a number of puzzling problems. It required practically all of the summer to secure sufficient equipment to place the hospital in a position to receive patients. The opening of the hospital on September 3, 1917, marks a distinct epoch in the history of the University of Nebraska College of Medicine. At the present writing, there are thirty-two patients in the hospital, presenting a wide variety of clinical manifestations. It is a matter of extreme gratification that the patients are being well cared for and that they are as happy as hospital patients can be expected to be. Cases are coming from different parts of the state, although naturally at the outset a rather large proportion will be received from Douglas county. So far, cases have been received from Cass, Nemaha, Lancaster, Clay, Madison, Valley, Fillmore, Otoe and Douglas counties. Case reports will be published in The Pulse as they are worked up by the senior on the medical and surgical services. The hospital is lending itself to clinics with remarkable facility and that large amount of confusion usually incident to the opening of a new institution has been absent. The hospital is in charge of an excellent corps of nurses under the direct supervision of Miss Charlotte Burgess, whose training and experience renders her valuable for our special needs.

A few changes and additions to the faculty were made during the summer months. Dr. Maurice I. Smith assumes charge of the department of pharmacology, taking the place made vacant by the resignation of Dr. J. D. Pilcher. Dr. Smith is a graduate of the College of the City of New York and has his M. D. degree from Cornell Uni-

versity. He comes to us direct from the University of Michigan, where he has had virtual charge of the courses in pharmacology for the past few years. Dr. J. A. Kittleson comes to us as Assistant Professor of Anatomy and will add to the strength of the growing anatomical department. Dr. A. A. Johnson and Dr. H. H. Eggers are both absent on leave attending to military duties. Dr. Johnson is at present stationed at Waco, Texas and will be unable to return for the first semester. Dr. Johnson's course will be given by Drs. Manning and Waters. It is expected that Dr. Eggers will be furloughed for the purpose of continuing instruction in the second semester beginning February 1, 1918. Dr. A. S. Rubnitz, class of 1916, has joined the staff of the chemistry department as a full-time instructor. Dr. Rubnitz has been engaged during the summer on some problems of chemical technique.

The military situation which has been a source of tremendous annoyance has been partially cleared by the publication of circular number eleven, by the Provost Marshal General. The portion which relates to medical students is herewith appended:

MEDICAL STUDENTS AND HOSPITAL INTERNES

The President prescribes the following supplementary regulations governing the execution of the selective-service law.

1. Hospital internes who are graduates of well-recognized medical schools or medical students in their fourth, third, or second year in any well-recognized medical school who have NOT been called by a local board for physical examination may enlist in the Enlisted Reserve Corps provided for by section 55 of the national-defense act under regulations to be issued by the Surgeon General, and if they are thereafter called by a local board they may be discharged on proper claim presented on the ground that they are in the military service of the United States.

2. A hospital interne who is a graduate of a well-recognized medical school or a medical student in his fourth, third, or second year in any well-recognized medical school, who has been called by a local board and physically examined and accepted and by or in behalf of whom no claim for exemption or discharge is pending, and who has NOT been ordered to military duty, may apply to the Surgeon General of the Army to be ordered to report at once to a local board for military duty and thus be inducted into the military service of the United States, immediately thereupon to be discharged from the National Army for the purpose of enlisting in the Enlisted Reserve Corps of the Medical Department. With every such request must be inclosed a copy of the order of the local board calling him to report for physical examination (Form 103), affidavit evidence of the status of the application as a medical student or interne, and an engagement to enlist in the Enlisted Reserve Corps of the Medical Department.

3. Upon receipt of such application with the named inclosures, the Surgeon General will forward the case to the Adjutant General with his recommendations. Thereupon the Adjutant General may issue an order to such interne or medical student to report to his local board for military duty on a specified date, in person or by mail or

telegraph, as seems most desirable. THIS ORDER MAY ISSUE REGARDLESS OF THE PERSON'S ORDER OF LIABILITY FOR MILITARY SERVICE. From and after the date so specified such person shall be in the military service of the United States. He shall not be sent by the local board to a mobilization camp, but shall remain awaiting the orders of the Adjutant General of the Army. The Adjutant General may forthwith issue an order discharging such person from the military service for the convenience of the Government.

4. Three official copies of the discharge order should be sent at once to the Adjutant General to the local board. Upon receipt of these orders, the local board should enter the name of the man discharged on Form 164-A and forward Form 164-A, together with two of the certified copies of the order of discharge, to the mobilization camp to which it furnishes men. The authorities at the mobilization will make the necessary entries to complete Form 164-A and will thereupon give the local board credit on its net quota for one drafted man.

5. In case such medical student or interne is ordered to report to a local board for military duty in the normal course of procedure, as prescribed in Mobilization Regulations before a discharge order has issued in respect of him, he must report to his local board and be sent to a mobilization camp, unless an order is received discharging him from military service before he is so sent. If such order is received before he is sent to the mobilization camp, the order and not the man, will be sent to the mobilization camp, as prescribed in paragraphs 3 and 4 hereof. If such order is not received, the man will be sent and credited in the usual way. If he is thereafter to be discharged from military service to permit him to enlist in the enlisted reserve corps, the discharge will be consummated by the military authorities.

6. This method applies only in the cases of medical students and hospital internes as above provided. *It does not apply to dental or veterinary students or to students in other technical schools."*

The undersigned has expended five million dollars worth of patience and an untold amount of energy in endeavoring to secure some definite ruling under which medical students might be permitted to continue medical course. A large number of telegrams and letters have been exchanged with the Washington authorities. It is evident that the authorities are endeavoring to do the right thing for all concerned, yet decisions and rulings are slow in coming and tedious in execution. We must remember that all departments in Washington are tremendously over-worked and that no small amount of patience must be exercised in connection with requests which are in the least out of the ordinary. *It is urged upon all students who have not been called by local boards for physical examination that they at once apply for enlistment in the Enlisted Reserve Corps of the Medical Department.*

The large enrollment in the College of Medicine, over 170, is indicative of the rapid progress which the school is making for the highest type of medical teaching. No school in the country has more competent or more conscientious medical instructors and no school has proportionately better hospital clinical facilities directly under the

control of the school. When one considers that cases not controlled by the medical school are utilized for but a fraction of their teaching value, one is impressed with the tremendous opportunities which are presented at Nebraska. That the faculty of the College will rise to these opportunities there is no possible doubt.

IRVING S. CUTTER, *Dean.*

HON. F. L. HALLER

The first war trouble was brought home to us in the case of Hon. F. L. Haller, Regent of the University of Nebraska. Mr. Haller was instrumental in getting us this wonderful school at Omaha. His efforts given to the state, without compensation have won for him a spot in the hearts of all the students and alumni of the university. He is respected and honored at our school.

Mr. Haller is accused of showing pro-German sentiments. This charge has been made against him by a certain Nebraska editor, whose main object in life seems to be the stirring up of trouble. Mr. Haller has refused to make a statement. The editor has asked for Mr. Haller's resignation, and thus the matter stands at this writing.

Politics in America seem to be founded on "dirty" tactics. For instance: A man in one party becomes strong and gets a good following. Immediately the other party tries to get something on the strong man. If successful they put their yellow journalism to work and "soft-soap" the public into believing the charges made. Many good men have been ruined by such methods. Mr. Haller is a Republican. The editor is a "Bryan Democrat." Mr. Haller was becoming a very strong man and there we have the story as plain as the nose on your face.

If the university should today lose Mr. Haller, one of the most brilliant and able men of Nebraska would be sacrificed on the pillar of politics. The student body of this college of medicine are with and for Mr. Haller and are only hoping that the laity are not "SOFT-SOAPED."

We deliver the goods—Watters and Stonecypher.

FRESHMEN WELCOME

As Freshmen, you enter this school to take up your life's work. Here you will receive the training that will fit you to take your place in your community. You have chosen a profession which is more highly respected than any other profession. If you go thru the course and graduate at the end of four years' hard work, you will become one of the highly respected men of the community in which you live, but if you start and fail you will be one of the laughing stocks of the community. There is no midpoint. You come to rest finally at one extreme or the other. Bear this well in mind, and put into your studies all you can for you are the one to reap the harvest not the school. What you get out of the course depends on you, and you only.

You have entered the largest class in the history of the school and the school is proud of you. Be proud of your school, and boost for it. Before long one of the centers of medical education in the United States is going to be at U. of N., Omaha and you will want it known

that you are a member of that organization. Accept your charge, and go to it with the good will of the entire school behind you.

STUDY VERSUS GRIND

Well fellows, we have reached a new medium for development and as Dr. Willard would say, "we must orient ourselves to the new conditions." We miss the abundance of social life that clustered about our preparatory work in college. We lack friends and social opportunities here in the city. We feel that we are now starting our career in earnest. There are vast fields to cover and thousands of facts to memorize, so we must find our pleasure in the work we are doing and we start at it with a determination to do or die. The result is we study every evening for hours and get up the next morning with nothing in our heads but the satisfaction of having studied hard the night before. Our physical body begins to run down due to lack of exercise, and change of diet. We come to lecture tired and thick-headed and go away with a small amount of the substance dished out. About this time we take inventory and find out that we have gone back to the beginning of civilization, to the Chinese, for our system of education, to the time when a person housed himself up for the purpose of study. Let us remember that the human mind can only retain a certain number of facts at one time. Sit down and study for an hour and then do something else for an hour. Then study another hour and you will have all your little bucket will hold at one time. Get plenty of sleep and go to class with lots of pep. Have a clear brain. In the classroom and in the lab. is the place to get your information, so don't plan on getting it all at home. This sounds very much like a Lydia Pinkham advert, but advice is the doctor's chief product of economic value. Try a week's treatment and satisfaction is guaranteed or your money back.

THE HIGH COST OF FEEDING

The high cost of feeding is making me broke
For a quarter square meal I long and I croak
All you get for 4-bits, you can stick in your I;
The price of a lunch is 2 Gosh Durn high.

It takes a small fortune to board for a week.
All you get a month you could put in your beak,
For a look at a spud they charge you a dime
For a smell of the hash, it's a nickle a time.

You mortgage your home for a sample of steak,
The price of a pork chop would Carnegie break
If I founder in this burg it sure will B odd
For the high cost of feeding is shooting my wad.

And when at last I have taken my fill,
I go up in an airship to look at my bill,
The nickel plate days are a thing of the past
For the high cost of feeding has taken my last.—B. T. N.

For school supplies of all kinds see Stonecypher or Watters.

LIBRARY NOTES

The library is now located in its new quarters in the administrative wing of the hospital building. The reading room with its open shelves of 10,000 reference volumes, its large reading tables and its soft gray walls is a most attractive place for reading and study. The growth in the past three years from small miscellaneous collections to a well rounded out medical library, has been unusually marked.

The importance to Nebraska of such a collection of medical books kept up to date by a steady inflow of the best journals and monographs is obvious. Constant effort has been made toward the completion of files and most of these with the exception of a few foreign sets are now up-to-date. Many new texts and reference works have been purchased during the summer and everything is in readiness for a most welcome reception of visitors, students and doctors. Library hours are the same as formerly; 9:00 A. M. to 6:00 P. M. and 7:00 P. M. to 10:00 P. M. Sixteen popular magazines and daily newspapers have been added this year, these being intended for the use of the students as well as convalescents in the hospital. Besides these a small library of more than one hundred volumes of the best fiction is at the disposal of hospital patients.

HALLIE WILSON,
Librarian.

FACULTY NOTES

Dean Cutter spent his summer in Omaha looking after the finishing touches of the hospital. Dr. Poynter also remained at his post of duty all summer, continuing his research work for which the over crowding of his department gave very little time during the past year.

Dr. Willard with his family, were at their summer cottage in Estes Park. The doctor returned with a heavy coat of tan and reports of some splendid fishing.

Dr. A. E. Guenther, after closing of summer school, spent the month of August in New York doing research work and the first weeks of September in Ann Arbor, Michigan.

Dr. Amos W. Peters spent a part of his vacation in Ontario, Canada in the interests of the E. W. Gillette Company, Limited, for which he is consulting chemist. A month was spent in study in the biological chemistry laboratories in Washington, D. C.

Drs. H. E. Eggers and A. A. Johnson, of the Pathological department, have the rank of 1st Lieutenant in the Medical Reserve Corps, the former being stationed at Fort Riley, while Dr. Johnson is at Waco, Texas doing special laboratory work.

Dr. Pilcher, formerly of the department of Pharmacology, has been assigned the rank of captain and is stationed at Fort Benjamin Harrison.

Dr. J. J. Keegan, has taken up his work as Instructor in Pathology at the Peter Bent Brigham Hospital of Harvard University.

Dr. Kittelson, of the University of Minnesota, has been appointed Assistant Professor in the department of Anatomy.

Dr. Meyers took a two weeks vacation in August for a visit to his home in Kansas. He also visited Dr. Eggers at Fort Riley.

Maurice I. Smith, M. D., of Cornell and Assistant Professor of Pharmacology of University of Michigan, for the past three years, has been appointed Professor of Pharmacology.

Dr. Rubnitz, 1916, is assisting Dr. Peters in the department of Chemistry.

PERSONALS

Dr. Paul J. Flory is spending a few days at the College while awaiting his commission as Assistant Surgeon in the Navy. Dr. Flory has given up his practice in Genoa, Nebraska.

Dr. Earl C. Montgomery, 1917, has started his internship in the Presbyterian Hospital, New York City.

Dr. Niels Nedergaard, 1917, is serving an internship in the Swedish Hospital, Minneapolis, Minnesota.

Dr. Aage Brix is in the Los Angeles City and County Hospital serving an internship.

Dr. Lydia Schaum is assisting in the office of Drs. Gifford, Patton, Potts and Callfas.

The College of Medicine has been presented by Dr. A. F. Jonas, a most interesting and unique case of reproductions of old surgical instruments. These are the exact reproductions of surgical instruments excavated at Pompeii.

The case will be hung in the Library at Dr. Jonas's suggestion, where all may have the opportunity of inspecting these very valuable relics.

NU SIGMA NU

Folken and Figi spent the summer as internes at Wise Hospital. Folken underwent an operation lately, but has recovered sufficiently and is able to attend school.

MURPHY'S LOST AND FOUND DEPARTMENT

Lost—One pattellar reflex during the summer. Q. J. ROSS, Jr.

Burman and Cassidy were internes at the County this summer.

Rusche, Losey and Ross spent the summer at the house.

Dr. Salisbury and Wildhaber are spending a very valuable internship at the Allegheny Hospital in Pittsburg.

Julius Johnson takes service at Swedish Immanuel.

Earl Montgomery has joined Curti, Horten and Aten in Green Point Hospital in New York.

Roaring Riggert is our real home intern at the U. of N. Hospital.

Dr. Andrew Sinamark made the Navy and has received his commission as lieutenant after four months training in California.

Dr. Geo. Pratt is found among the officers at Ft. Riley.

Dr. Paul Flory is visiting at the chapter house (and various other places) on his way home from the Great Lakes training school.

Dr. Flory's army work succeeds an internship in Los Angeles General Hospital.

Patronize home industry and help win the war. Buy your supplies of Watters or Stoney.

NU SIGMA PHI

The Nu Sigma Phi Sorority held its annual banquet Saturday, September 29th at the Blackstone Hotel. Those present were:

Patroness, Mrs. W. Q. Willard.

Doctors Olga Stansey

Harriet S. Hamilton, Co. Bluffs

Elizabeth Mason Hall, McCook

Mrs. Emelia Brant

Mrs. K. M. Hnut

Mary Sheldon

Darlein Ivers

Edna Gibbs

Barbara Churchill

Bebannis Sisler

Dorcas Christenson

Mrs. W. H. Mick was initiated as an honorary member of Nu Sigma Phi, September 4th at the home of Edna Gibbs.

PHI RHO SIGMA NOTES

Phi Rho Sigma announces the pledging of the following men; Lanyon, Graham, Bennett, Huffman, Heider, Beck, Lee, Amick, Ford, Humphrey and Angle.

John Deering and Elder Kirkpatrick are serving in khaki at Fort Riley.

Northrup and Nolan recently showed their peculiar ability in taking histories over at the hospital.

Roy Maurer spent the summer in Gunn, Wyoming, looking after the physical needs of the "Sons of Gunn."

Dakin, Huffman and Neilson took care of voluminous out call business and after the general upkeep of the house and premises during the past summer.

PHI CHI NOTES

Phi Chi announces the following pledges; Anderson Berry, Barnes McDonald, Moore, Bruce, Jenkins and Harvey.

Freidell is in Rush this fall.

Misko, Edminsten and Lamphere are at Northwestern this year.

Edminsten and Lamphere visited the house last week.

Greiss, Hannish and Weir spent the summer at the house.

FRESHMAN WIT? ? ? ? ?

Dr. Poynter recommended that we spend four hours on our Embryology every evening, recapitulating—we find that Ford, one of our most obedient Froshes sat on his book for the required length of time.

Ev. Angle wants to know if the Seniors and Juniors think they are funny—not that he cares about his hat being thrown on the floor, but it is just that principle of the matter.

McDonald would like to have all Sophomores with any material that would be valuable in Embryology, to be sure and leave it at the Phi Chi house at once (this is urgent.)

We deliver the goods—Watters and Stonecypher.

Dr. Peters ought to furnish board and room with that Chem. Lab. course.

All information concerning "little Eva" can be found out at the Nu Sig house thru Bill Johnson—most any time.

Coroner: "The cook knocked over the lamp which set fire to the room. She burned to death. A bad case of negligence, I should say."

Troup (a frosh on the jury). "Sounds more like a bad case of inflammatory rheumatism to me."

Bennett: "Those Nu Sigs must be card sharks."

Ford. "How do you figure?"

Bennett. "Ever notice how they shuffle their feet?"

Dr. Peters. "What is a dry dock?"

Amick. "I should say a thirsty physician."

Baer. "Say, Burns, why do you always put your coin under your pillow at night?"

Burns. "Oh, I always like to have a little to fall back on."

Dr. Poynter. "Isn't it funny that a disease attacks the weakest point?"

Lanyon. "Yeh, I notice that yuh got a cold in your head."

SOPHOMORE NOTES

Roll call sounded and the sophomore class showed up with five men short. It seems that patriotism went ahead of medicine a little.

The reforms accomplished during vacation will be published serially this year.

1. Bronson's haircut; a weekly occurrence.
2. Stonecypher still selling worthless paper to everyone in school.
3. Mecher arrives on time to class.
4. Lissack left his rubbers at home.
5. McCormick is again trying to raise a mustache.

(Continued in our next.)

The following is a problem in chemistry. It was written in the form of poetry for the present sophomore bunch. The metre was O. K.'d by the Omaha Gas Company.

To reduce ferrous umphate to ferrous umphite:

1. Catch an amoeba and immerse carefully in a small beaker of N/10 ferrous umphate. (N. B.—This requires great technique, as the amoeba dislikes getting its pseudopodia wet.)
2. Politely introduce a striped paramecium in the mess and heat over a musing murmur for several seconds.
3. Titrate the amoeba against the striped paramecium in the same solution. This will make umphite.

AIN'T YOU FUNNY?

Dr. Guenther. "What is the best plan for us to reduce the high cost of living?"

Murphy. "Live like the moth. He eats nothing but holes."

For school supplies of all kinds see Stonecypher or Watters.

POINTED PARAGRAPHS

All our school lacks is a flag pole with the American emblem floating high on the four winds.

Some people look good with a haired lip while others—Oh, Lord help us!

Now that the Frat battle is over let us all go to work.

Speaking of operators, have you been over to the hospital?

Did the Fresh find out where they should hang their hats?

Dr. Poynter claims he has a new line of jokes. We doubt it, but still the Ladies Home Journal is published every month.

Do clothes make a man? We refer here to the toga of state that a certain Ernie Johnson wears in the embryological lab.

The senior class is just as noisy as they were when they were juniors.

The bells are on the hummer as usual.

A light in the hall leading to the smoking room would probably save us from falling over the library stacked there.

If some students around school would use their head to think with instead of driving nails with it, they would be better off.

Why don't some individual with a lot of pep try and start an all university banquet?

MERELY A TIME CARD

2:00 a. m. Bill Johnson puts away his books and retires for the night.

3:30 a. m.—McDonald seen plodding it home from South Omaha.

3:45 a. m.—Ev Angle arrives home and brings in the milk.

5:00 a. m.—Mulligan brothers arise and fight over a necktie.

5:30 a. m.—Amick starts primping for school.

6:45 a. m.—Baer stretches, yawns, and turns over for his beauty nap.

7:45 a. m.—Barnes starts cramming for an 8 o'clock quizz.

8:40 a. m.—Jenkins arrives for an 8 o'clock class.

9:30 a. m.—"Embryology"—Ford sleeping peacefully with his head on his arms and books in front of him.

10:45 a. m.—Chet. Johnson again borrows a Camel.

12:00 noon—Sounds of soup from the Phi Rho house.

2:30 p. m.—Orpheum lab.

2:45 p. m.—Burns diligently carves his initials in the railing of the Orpheum coop.

7:00 p. m.—Troup decides to call her up.

7:45 p. m.—Woods, Bruce, Berry, Heider and the rest of the children retire for the night. (N. B.—Troup continues to talk.)

9:30 p. m.—Huffman apologizes to "her" for staying so late.

10:30 p. m.—Bennett walking in his sleep.

11:30 p. m.—Chesley starts out—he decides to see Omaha at night.

For school supplies of all kinds, see Stonecypher or Watters.

Coleman thinks the faculty is getting to darn strict—he noticed that even the thermometer was getting down around 50 now days.

We are afraid our Juniors are victims of the foot and mouth disease. It seems as if every time they open their mouth they put their foot into it.

Patronize home industry and help win the war. Buy your supplies of Watters or Stoney.

"SUCH IS THE CRUEL WOILD"

Say, what d' yuh know about women?
 I'm thru!
 Saw a Jane who looked jolly and daring,
 From her smile to the shoes she was wearing,
 So I spoke,
 And the joke
 Was on me,
 's a fact,
 For she froze on a look
 That said, "Give him the hook!"
 And passed me by 'flat.
 'Twas the limit.

Say, what d' yuh know about women?
 I'm thru!
 Met a shear who seemed dainty and quiet—
 Safety first, let some other guy try it!
 So I ran
 And say, man
 I was fooled,
 'S a fact!
 'S a fact!
 For that sweet, demure glance,
 Meant, "Just give me a chance,"
 And I never made good,
 'S the limit.

—W. W. M., '21.

PRE-MEDIC ITEMS

Russell Best, of Omaha, has been elected President of the Sophomore Class.

Robert Carlson, Secretary of the Pre-Medic Society last year, has been elected President this year.

Kralmluk announces that "Ketchup" will be given by his class to all freshmen who are behind in their work.

Max Block says that just 'cause the Nu Sig Phi is composed of belles, is no reason for their annual hop being called a "bell-hop."

From experience, Nielson has found that absence makes the marks grow rounder.

Schembeck has come to the conclusion that some of his books during his four years of mecidine, have been interesting; while the others have been merely recommmeded by the school.

Place orders for paper, note-book covers, etc., in the Watson Company's bos in the locker rooms. Stonecypher, Watters.

Dean Cutter: "They tell me you're quite a crafty fellow! !"
Westover: "Yeh! I know every bar in K. C."

Safarik informs us that we should not count our chicks enuntill we were sure they were chickens. "What does he mean?"

Thompson ruined several pieces of furniture at the Phi Pho house the other quiz day. Some smart Fresh threw a pir of cuffs, containing his "crib" into the laundry bag. Wo! to that Freshman.

Dr. McClenahan: "What is adyne?"
Meyers: "One o'clock at Phi Rho house."

A FEW ON THE JUNIORS

"A Corking Good One!"

Griess: "Say, Morris, why the dickens do you smoke so many cigarettes?"

Morris: "Why, I'm saving the cork tips to make a life preserver."

*Her's were the clocks on the stockings,
His were the hndas on the clock—
(Most scandalous, yuo will agree)
But she hand't them on—
Fact they'd never been worn—
He was obly the salesman, you see.*

— Yale Record.

A famous surgeon met a prominent society woman several months after having performed a serious operation on her. He did not recognize her at first, but suddenly his face took on a sign of intelligence and he exclaimed loudly: "Oh, yes, Mrs. Rivers, I didn't recognize you with your clothes on."

—Augwon

Marie: "If you look at a dog's lungs through an X-ray, what do you see?"

Harry: "Why, his lungs, of course."

Marie: "No, you're wrong! You would see the seat of his pants."

—Augwon

Guest: "When was this chicken killed?"

Waiter: "We don't furnished dates with chickens, ir, just bread and butter."

We deliver the goods—Watters and Stonecypher.
